

# Student Navigation Tutorial

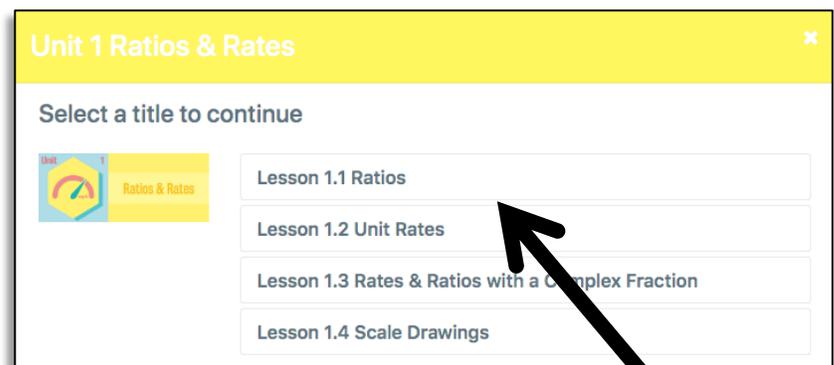

1

Click the **Unit** you want to access.

A pop-up window with a menu of options will appear.

You will see a list of the **Lessons** in that unit.

2

Select a **Lesson Page** to be taken to all the resources for a particular lesson.

# Lesson Page

The Lesson Name and Target are visible along the top of the page so that you know you are in the correct lesson.

These are the resources that are specific to this particular lesson.

Clicking any of these buttons opens that resource.

The *first* lesson of any unit contains the Unit Vocabulary pages as well as the Parent Guide.

The *last* lesson of any unit contains the Online Unit Review and the Tic Tac Toe board.

I can write ratios to represent a situation, and use ratio concepts to solve problems.

This button will take you back to the home page with all the Unit Icons

Select this button to show all your scores for any Online Practice, Gem Challenge or Online Unit Review submitted.

If you are enrolled in any other EdGems Math classes, select this drop-down menu to switch classes.

Select this drop-down and then "My Assignments" to see any new, started, or completed assignments your teacher has selected for you. This is also where you will access Custom Quizzes created by your teacher.

Search for specific lessons or units by typing in the search bar. A list will be generated taking you directly to the lesson you need.

This button reveals a drop-down menu with the options to learn more about EdGems Math, view the Multi-Lingual Glossary or Sign Out.
